ELECTRIC HEATING INCUBATOR >>

BPX series

Product Features >

- The shell is made of cold-rolling steel with static spray plastics, the working chamber is made of mirror stainless steel, the shelves can be adjusted optionally;
- Adopting PMMA I operating system, temperature control, timing, and over temperature alarm;
- Imported motor and fan, intelligent temperature controller with timing function;
- The fan has 6-stage speed regulation;
- LCD screen, temperature and time control, over-temperature alarm function;
- Observation window on the door, convenient for users to observe;
- Nano material magnetic door seal strips and heat preservation material;
- Programmable design, it can be set 10 segments 100 cycles;
- Power supply recovery function, data will not be lost when power failure and system halted.
